Until a few years ago I never dreamed that a supportive community existed on the net. I used social media in a light-hearted way, keeping in touch with friends on Facebook and I chatted about books and TV on Twitter. But in 2011 after having a devastating bipolar episode, I began blogging as a way to process my feelings. I created a new Twitter account to promote the blog but over time it became an important connection to the mental health community for me.

They might ask the father, "Will you get the baby dressed?" — but then tell him what the baby should wear. Or they might criticize the father if the baby's diaper falls off. Some of these parenting duties take time to learn, and women should let men learn for themselves and make mistakes. Nonetheless, men ought to learn how to take on roles and duties as dads that they never engaged in growing up.

Google offers Cloud Bigtable on the same pay-as-you-go basis as most Cloud Platform offerings. Each Cloud Bigtable node, which can deliver 10,000 queries per second and 10 MB per second of data transfer, costs 65 cents per hour. At least three nodes are required per Cloud Bigtable cluster. There are also fees for storage and some data transfer.

Both eukaryosis and abiogenesis are issues explored in my latest book as part of a far broader evolutionary process that is traceable from the formation of the chemical elements in stars right through to its latest manifestation, the emergence of the Internet. See "The Intricacy Generator: Pushing Chemistry and Geometry Uphill"

Happily, these are all problems that can be fixed – and it starts with new leadership. Labour should look for a leader who looks and sounds like he might understand people's problems. And when he speaks, he should make them salivate with the ambition of his solutions. The goal should be to pull together that progressive alliance that undoubtedly does exist and offer something to Tory voters that trumps the rather negative and elitist nature of the Conservative Party.
