Unless you can't eat dairy, there's absolutely no advantage and several potential disadvantages of choosing coconut milk yogurt over regular yogurt. One small pot of Co-yo coconut milk yogurt contains around 21g of saturated fat, which is more than you should eat in entire day. Another downside is that unlike traditional yogurt, it doesn't usually contain any calcium.

Changes in employer coverage practices as a result of the health law are probably part of the story, but job gains coming out of the recession are almost certainly part of it too. In other words, even with RAND's coverage breakdown, it's hard to pin down how much was a direct result of Obamacare, and how much was about the relative revival of the economy.

You can see how this makes sense for Ukip, a party that has grown on animosity to the political establishment. Ukipers have long felt that the established parties have tried to silence them and exclude them. FTTP suits the big parties at Westminster and penalises smaller ones: the political establishment is using the rules to silence the 3 million Ukipers, the party will now argue.
